What is this product?

Type: Shares of a Sub-Fund of Amundi Alternative Funds III ICAV, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as an ICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund is an active UCITS that promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. It is not managed in reference to a benchmark.

The Manager, Amundi Asset Management, has appointed Bridgewater Associates LP as Investment Manager to implement the trading strategy.

The Sub-Fund's investment objective is to seek capital appreciation over the medium to long term while simultaneously taking into account environmental, social and governance (ESG) objectives by being predominantly exposed to securities which meet the Investment Manager's criteria on sustainability which are reviewed and applied on an ongoing basis.

The Sub-Fund seeks to achieve this objective by investing predominantly on a long basis and may from time engage in short positions for hedging and/or portfolio construction purposes only. Investment decisions will be made by implementing the Investment Manager's proprietary investment strategy, which is a disciplined, fundamental and systematic investment strategy grounded on the belief that the return of asset classes is driven primarily by changing macroeconomic factors and their influence on markets. Considering market conditions, the Investment Manager anticipates that the long-term volatility (measured as annualized standard deviation of monthly returns) of the Sub-Fund will be approximately 8%.

The Sub-Fund will pursue its financial objective while taking into account ESG objectives by maintaining exposure primarily to securities aligned with the United Nations Sustainable Development Goals (SDGs) which are a set of global goals oriented toward positive ESG impact. The Investment Manager has developed a proprietary methodology in order to determine the extent to which a security is aligned with the SDGs. Within each asset class, the securities that have the highest level of alignment with the SDGs are kept to constitute a universe of sustainable securities irrespectively of their business sector (also called a "best-in-universe" approach).

The main limits of the extra-financial approach of the Sub-Fund are third party data reliance and sustainability risk mitigation completeness. Further details about those limits can be found in the supplement for the Sub-Fund.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Alternative Funds III ICAV prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France. The Net Asset Value of the Sub-Fund is available on www.amundi.ie

Depository: Société Générale S.A., Dublin Branch.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Alternative Funds III ICAV prospectus.

What happens if Amundi Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Amundi Alternative Funds III ICAV. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME
