## What is this product?

**Type:** Shares of a Sub-Fund of Amundi Alternative Funds III ICAV, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as an ICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The Sub-Fund is an active UCITS and is not managed in reference to a benchmark.

The Manager, Amundi Asset Management, has appointed Bridgewater Associates LP as Investment Manager to implement the trading strategy.

The Sub-Fund's investment objective is to seek capital appreciation over the medium to long term.

The Sub-Fund seeks to achieve this objective by investing on a long and short basis. It seeks to generate returns while minimizing volatility caused by shifts in economic conditions through diversification across different asset classes and financial instruments that feature different sensitivities to economic conditions.

Investment decisions will be made by implementing the Investment Manager's proprietary investment strategy, which is a disciplined, fundamental and systematic investment strategy grounded on the belief that the return of asset classes is driven primarily by changing macroeconomic factors and their influence on markets. Considering market conditions, the Investment Manager anticipates that the long-term volatility (measured as annualized standard deviation of monthly returns) of the Sub-Fund will be approximately 9%.

**Intended Retail Investor:** This product is intended for investors, with an average knowledge of and some experience of investing in funds, with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Alternative Funds III ICAV prospectus.

**Distribution Policy:** As this is a non-distributing share class, investment income is reinvested.
