The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

**Management Process :** The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team chooses securities based on an intrinsic value analysis (bottom-up), then monitors the sensitivity of the portfolio to equity and credit markets according to their market expectations (top-down). The investment team actively manages market and risk exposure with the goal of optimising the asymmetric risk/return profile of the fund. All the convertible bonds held in Sub-Fund portfolio (i) are included in the investable ESG universe determined by Montpensier Finance, based on the implementation of its 4-step exclusion process, implemented at the underlying equity level and (ii) are analysed under Montpensier Finance proprietary methodology and therefore qualify for the following ratings: MGF: Watchlist or Pass and MIC: Positive or Neutral.
