What is this product?

Type: Shares of a Sub-Fund of Amundi Funds, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: Seeks to increase the value of your investment over the recommended holding period, while investing in economic activities that contribute to a Sustainable Future, addressing some of the global challenges in order to achieve sustainable growth.

Investments: The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The Sub-Fund invests mainly in a broad range of securities from around the world and which contribute to a sustainable future, as measured

according to the environmental, social and governance challenges indicators. This may include (i) euro denominated investment grade bonds, across the full range of maturities, issued by governments of OECD countries or supranational entities and or corporate entities. At least 10% of the sub-fund's assets are invested in green, social and sustainable bonds, aiming to finance energy transition and social progress and that meet the criteria and guidelines of the Green Bond, Social Bonds and Sustainable Bonds Principles as published by the ICMA; (ii) inflation linked bonds; (iii) up to 10% of the sub-fund's assets in contingent convertible bonds and up to 40% of the sub-fund's assets in equities. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Benchmark: The Sub-Fund is actively managed and uses the MSCI Daily Net Total Return World Euro Index (30%) Bloomberg EuroAgg Total Return Index Value Unhedged EUR Index (70%) Index (the "Benchmark") a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee, as a benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

Management Process: The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investing" of the Prospectus. The sustainable investment objective is achieved by investing in companies and issuers, on both global equity and fixed income markets, which contribute to creating a positive long-term environmental or social contribution to a Sustainable Future. The selection of the securities results from a traditional financial analysis coupled with an extra-financial analysis aiming to assess the actual contribution and commitment to a sustainable future. The sub-fund does not invest in companies deemed not compatible with the objective of the Paris Climate Agreement to limit global warming; the sub-fund therefore excludes companies that derive more than a certain percentage of their revenue from fossil fuels. The sub-fund also meets the requirements of the French socially responsible investment (SRI) label. The Sub-Fund applies supplemental and specific exclusion criteria on companies and public issuers on the basis of controversial activities and controversial behaviour. The Sub-Fund's investment universe is represented by the Benchmark reduced by a minimum of 20% due to exclusion of securities with a lower ESG rating. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Funds prospectus.

Distribution Policy: As this is a distributing share class, investment income is distributed.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
The Net Asset Value of the Sub-Fund is available on www.amundi.lu

Depository: CACEIS Bank, Luxembourg Branch.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 4 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Amundi Funds. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
